

Planck E International B.V.

Climate Integrity & Sustainability Advisory

About Us:

Planck E International B.V. is an independent consultancy at the intersection of science, policy, and business. With a presence across **Europe, North America and Latin America**, we build credible pathways for the global energy transition.

Our Leadership:

Dr. Patrizia Tomasi-Bensik – PhD in Chemistry, MSc in Quantum Physics, Mechanical and Chemical Engineer. Internationally recognized expert in carbon market integrity, energy systems, and epistemology. Author of *The Science Behind Carbon Credits* and *Risk Management in the Green Market*. UNFCCC technical expert. Internationally recognized expert on carbon credit methodologies and co-developer of the ZerO2Nature standard.

Hinrik Caspar Bensik – 25+ years of experience in sustainability, energy transition, and carbon markets. Expert in international consultancy, trading, and environmental strategy. Co-developer of the ZerO2Nature standard. Multilingual (NL, EN, PT, FR, SP).

Our Services

- **Carbon Market Integrity Assessment** – Evaluation of carbon standards and compliance markets (EU ETS, voluntary markets, ZerO2Nature).
- **ESG Claim Verification & Green Finance Due Diligence** – Independent verification of environmental claims and green finance products.
- **Energy Transition Consulting** – Strategies for renewable energy, sustainable mobility, and circular economy projects.
- **Training & Education** – Workshops, executive briefings, and academic collaborations.
- **Litigation Support** – Expert analysis in carbon market fraud and environmental compliance cases.
- **ZerO2Nature Development** – A new framework for genuine, scientifically sound carbon and pollution removal credits.

Why Us?

- Independent & science-driven
- International & multilingual expertise
- Proven fraud detection capacity
- Strong networks in Latin America, Europe, and North America
- Deep industry and policy connections
